- These factors affect:
  - how
  - when
  - where
  - why
  - people use content and how content is distributed and viewed, and help us make important decisions

- *These factors mean that adding value is as important as the content itself. Adding value is means giving people what they want:*
  - *quality of life*
  - *time*
  - *less stress*
  - *etc.*

# Nuevos Caminos para el LINUX Educativo

- *So, our role is in adding value to content by:*
  - *researching*
  - *sequencing*
  - *designing*
  - *reacting quickly*
